## **Steps & Supplies Needed Before Group Mentoring Begins**

- 1. Your Amazon Seller Central account must be active and set as a professional seller (\$40/month).
- 2. Register with the state and federal government to get tax IDs, and get your state's resale certificate once you have your business set up in order to get tax exempt status for your purchases. This is not a requirement to start the class, but will be very helpful in saving money on inventory and doing your taxes next year.
- 3. I recommend that you get ungated for the grocery category using Frontier or another grocery supplier if you aren't already ungated. It is most helpful to be ungated in that category, but it would be good if you can add other categories as well. It can take multiple attempts to get the invoice approved, so be patient and keep trying. https://wholesale.frontiercoop.com/
- 4. Have the Amazon seller app installed on your phone (free)
- Purchase a Keepa subscription ~\$17ish per month (exchange rate). This is required because there is no better way to make educated buying decisions for inventory. Go to keepa.com
- 6. Set up an Inventory Lab account at \$49 per month get the free trial for the first month. If you already have a subscription to a different inventory management and shipment creation platform, that is fine, but just know that I will be using Inventory Lab for examples and processes. Go to inventorylab.com

16. Polybags-small combo pack \$22 and large combo pack \$30 or order from ilovesupplies.com. We've found these to be best quality polybags. Individual sizes can be purchased from this listing instead, but combo packs have greatest value for the money. Most of our replens must be polybagged to send into FBA, so we use large quantities from ilovesupplies.com.

- 17. "This is a set" labels (\$11) These are a necessity for replens sellers because we often sell sets. You can print your own in black and white, but the bright colors are really nice. There are plenty of listings for these, so check the pricing to get a good deal. https://amzn.to/2tsGkx5
- 18. Boxes Small, Medium,, Large, X-Large boxes (we order through U-Haul since there is free shipping). We started out just using recycled boxes, but once you start growing,

buying boxes is faster for prep and ship. You can get boxes from Walmart, Home Depot, Lowe's, U-Haul, etc.
